

## Sparks

Alex Clare

Fell apart  
It all fell apart  
Except for this piece  
You left in my heart  
And I hang on to it  
Everyday

There's a beast in me  
He's fighting the man  
The man who's tryin' to do good  
Tryin' to understand  
That we can do his best to  
Bring you back down

And we're just chasing sparks  
We're just chasing those ancient sparks

Said come to the garden  
My sister, my wife  
And I'll give you the finest things of your life  
And you can get lost in the goodness of me

Things got in the way  
The that we understood  
We failed to do the things that we should  
Now we're strugglin' everyday

And we're just chasing sparks  
We're just chasing those ancient sparks  
We're just chasing sparks

Give us so much of the things we must learn  
Gonna hold on to this long as I can  
Things we can teach them  
So much more we can learn  
Gonna hold on to this long as I can  
We need to fall apart  
Just to make our hearts yearn

Sometimes I fall apart  
(Sometimes I fall apart)  
(Sometimes I fall apart)

Sometimes I fall apart  
(Sometimes I fall apart)

And we're just chasing sparks  
We're just chasing those ancient sparks  
We're just chasing sparks  
We're just chasing those ancient sparks
