Good morning sunshine, I hope that you're well Honey I missed you, last night when night fell You should know, sunshine, you brighten my day The world gets so dark, love, when you go away

They say absence makes the heart grow fonder But I can't help but wonder

If the darkness came tomorrow, Could I keep you in my mind? Where you rise i'll gladly follow Just for the chance To stand in your light

Good morning sunshine, I'm glad you're still here My darling it's hard when my friends can't be near Till I can be there to show them I'm true I hope what they're seeing is as bright as you

They say absence makes the heart grow fonder But I can't help but wonder

If the darkness came tomorrow,
Could I keep you in my mind?
Where you rise i'll gladly follow
Just for the chance
To stand in your light
If the darkness came tomorrow,
Could I keep you in my mind?
Where you rise i'll gladly follow
Just for the chance
To stand in your light

Just one more chance To stand in your light

Good morning sunshine, I wish for your heart There's no point pretending that you won't burn out But you're still a symbol to all that you meet 'Coz you keep on shining, you're extraordinary

If the darkness came tomorrow, Could I keep you in my mind? Where you rise i'll gladly follow Just for the chance To stand in your light

If the darkness came tomorrow, Could I keep you in my mind? Where you rise i'll gladly follow Just for the chance To stand in your light

Good morning sunshine!
