

## Find You

Alex G

I feel your hand close to mine  
And your smile is easy to find  
So I'll hide this fear  
That you're not with me here

And I will laugh with you  
Kiss your cheek like you still want me too  
Though you're near, I know  
That you're not really here

So I'll wait for a sign that says it's not too late  
And I'll try to say the love that once was mine  
And I'll find, I'll find  
Your broken life that used to shine  
And I'll find, I'll find you

And I kept your heart  
On a chain, around my neck  
And you swore to me forever  
But forever fell apart

But I'll wait for a sign that says it's not too late  
And I'll try to say the love that once was mine  
And I'll find, I'll find  
Your broken life that used to shine  
And I'll find, I'll find you

So come back to me  
I've saved your promises in a box beneath my bed  
And now your touch is like a memory  
And your words are my souvenirs

I feel your hand close to mine  
But you're not really here

But I'll wait for a sign that says it's not too late  
And I'll try to say the love that once was mine  
And I'll find, I'll find  
Your broken life that used to shine  
And I'll find, I'll find you
