

Crawling Back

Alex Goot

1. I tried to leave you once but I could not get away,
this conversation has gone straight to hell
you were the one that changed, you changed everything
my world is upside-down and I don't know how

X: I'm crawling back to you
I'm crawling back to you
I'm crawling back to you
can't deny

R: I'm crawling back to you (I'm crawling back to you)
I'm crawling back to you again, oh
I'm crawling back to you (I'm crawling back to you)

2. You play so innocent but I know you're faking it
I'll never know what you do behind closed doors
It might be fun for a while but I've lived this way before
I just wish that I could say I don't need you anymore

X: I'm crawling...

R: I'm crawling...

*: You call me up in the middle of the night to tell me how you've been feeling lately,
I drove eight hours through the pouring rain
Nothing stops me anyway

X: I'm crawling...

R: I'm crawling...
