

# We Could Love

Alex Goot

1. So maybe I'm just blind  
Or maybe I can't see  
Well either one is fine  
I speak redundantly

It's hard to see what's wrong  
When you're diving in like me  
I used to love relentlessly

R: So how can you remember everything?  
Is there a rulebook for our love  
I'm not reading?  
If we could just free up the laws  
That binds our lives  
Then we could love  
Yeah, we could love

2. Don't get me wrong here  
I need you in my life  
But we're independent people  
At the current time

I know that years from now  
The day will finally come  
For us to love perpetually

R: So how can you...

\*: This is where I draw the line this time  
This just has to stop right here  
If we can't just learn to live our lives  
Then we don't have any hope at all

R: So how can you... (2x)
