

# Brain Leech

Alex Gopher

When the gunman turned around in my head  
It's like a leech on my brain  
The breakdown of all my emotions  
I'm back down and goin' blind

They settled down deep in my cells  
They're getting in everywhere  
I feel them multiplying inside me  
That's infecting my nerves

You're the one who can make it easy  
You're truly the best  
I note that you are my remedy  
So let's not medicate

They settled down deep in my cells  
They're getting in everywhere  
I feel them multiplying inside me  
That's infecting my nerves

You're smashin' me to pieces  
It's burning me down  
It has me in it's glitches  
I'm burning up the wall

You're smashin' me to pieces  
It's burning me down  
It has me in it's glitches  
I'm burning up the wall

You're smashin' me to pieces  
It's burning me down  
It has me in it's glitches  
I'm burning up the wall
