

# Aliens

Alex Lloyd

So the aliens have landed  
They'll be moving through you and i  
And as the family disbanded  
They dragged the sadness into the light

No more tears and no more pain  
Only things to keep you sane  
Only fun

And in the distance there's talk now  
Everyone wants to go home  
I hope you know you're not leaving  
For the night has just begun

And if i live to stay a day  
Words are left to fade away

And it started  
No pain for a rusty boat  
Down hearted  
No pain for a rusty boat
