

# Outside

Alex Lloyd

A familiar song  
Won't you sing along  
Something to prolong the waiting

In this secret place  
Where we can embrace  
All the history in the making

And we come in, to see you  
All alone again  
Don't forget to go outside  
To go outside your shell  
Don't regret what you denied  
What you denied, what you denied

All the casualties 180 degrees  
Lip sink every breathe were taking  
Somewhat static lines  
Reaching out tonight  
It's the mode and mould were breaking

And we come in, to see you  
All alone again  
Don't forget to go outside  
To go outside your shell  
Don't regret what you denied  
What you denied, what you denied

Don't forget to go outside your shell  
Don't regret what you denied yourself

In the harmony  
Ride along with me  
It won't work if you've been faking

And we come in  
To see you, all alone again  
Don't forget to go outside your shell  
Don't regret what you denied yourself

Don't forget to go outside your shell  
Don't regret what's left behind. yourself
