

## Safe To Say

Alex Lloyd

If I find a role back when  
We were more than absent friends  
When it feels too far away  
Nothing is so safe to say  
When you fall down at my feet again

Turn the page  
A story's told  
Dress it up  
Discard the mould  
When it feels too far away  
Nothing is so safe to say  
When you fall down at my feet

When it feels too far away  
Nothing is so safe to say  
When you fall down at my feet
