## **Sometimes**

Alex Lloyd

The traffic is jamming For miles up ahead Releasing emotions Deep in my head

I wish it was easy Easy to breathe The words that we needed To get some relief

I still hear you crying, then I see you smiling Even when I close my eyes

Sending a rescue Coming to find you Do you think that we could save another day Try not to break down Walking the old ground I don't want to throw the life we had away

Blocked up and cluttered Tired we stand Alone together Was just not the plan Something undenying In the underlining Even if I close my eyes

Sending a rescue Coming to find you Do you think that we could save another day Try not to break down Walking the old ground I don't want to throw the life we had away
