

Shame

Alex Newell

Everyone turns when you walk through the door
Signature lipstick they've all seen before
You think you're invincible, no one can take you down
Nothing is real, you're feet they don't touch the ground

(O-o-o-oh) you're not the only one
(O-o-o-oh) who feel's alone
You're spending all your time, wasting all your money
On a broken paradise, your hypnotised

Cause your exploding into the night
Pieces of you jumping out of the sky
All of the light are taking you in disguise
Nothing is real when you loose the fire, fire inside

Shame (give it up, give it up, give it up, give it up)
It's a shame (give it up, give it up, give it up, give it up)
It's a shame (give it up, give it up, give it up, give it up)
Loose the fire, fire, fire, fire tonight

It was a Thursday when you didn't show
Wasn't the first time you been out the night before
Nobody's perfect, but you can't reverse it
Nothing is real, except the hurting

(O-o-o-oh) you're not the only one
(O-o-o-oh) who feel's alone
You're spending all your time, wasting all your money
On a broken paradise, your hypnotised

Cause your exploding into the night
Pieces of you jumping out of the sky
All of the light are taking you in disguise
Nothing is real when you loose the fire, fire inside

Shame (give it up, give it up, give it up, give it up)
It's a shame (give it up, give it up, give it up, give it up)
It's a shame (give it up, give it up, give it up, give it up)
Loose the fire, fire, fire, fire tonight

It's a shame (oh no)
Your spending all your time, wasting all your money
On this broken paradise, your hypnotised

Cause your exploding into the night
Pieces of you jumping out of the sky
All of the light are taking you in disguise
Nothing is real when you loose the fire, fire inside

Shame (give it up, give it up, give it up, give it up)
It's a shame (give it up, give it up, give it up, give it up)
It's a shame (give it up, give it up, give it up, give it up)
Loose the fire, fire, fire, fire tonight
