

# Almost Home

Alex & Sierra

Lost in inner sense  
Take this fragile heart  
We know where we've been  
All this miles together  
Fall into my skin  
Crashing to these arms  
We know where this is  
Fading to forever

The road is wild  
We're holding on for life  
Like a trial  
Who's not afraid to cry  
We're escaping to a place I've never known  
Just you and me love  
We are almost home

Lost inside your eyes  
There's billion dozen stars  
Show me every side  
The good the bad the better

The road is wild  
We're holding on for life  
Like a trial  
Who's not afraid to cry  
We're escaping to a place I've never known  
Just you and me love  
We are almost home

Promise you I'll be  
The promise you can't keep  
Till the end of time  
And on the other side

The road is wild  
We're holding on for life  
Like a trial  
Who's not afraid to cry  
We're escaping to a place I've never known  
Just you and me love  
Just you and me love  
Just you and me love  
We are almost home
