

## Bumper Cars

Alex & Sierra

Can't help wondering why you're thinking  
Wherever you are  
Late night movies, careless drinking  
To cover the scars  
And as much as I wanna be with you, I know...

You and me, we're bumper cars  
The more I try to get to you  
The more we crash apart, no  
Round and round we chase the spots  
But all that seems to lead to....  
It's a pile of broken cars

We're bumper cars  
Bumper cars  
The more I try to get to you  
The more we crash apart

Good intentions, all these questions  
We're sitting alone  
All roads since you, all wrong directions  
I'll never get home  
And it's making me wanna be with you, I know...

You and me, we're bumper cars  
The more I try to get to you  
The more we crash apart, no  
Round and round we chase the spots  
But all that seems to lead to  
It's a pile of broken cars

We're bumper cars  
Bumper cars  
The more I try to get to you  
The more we crash apart, no

This was supposed to be fun  
This was supposed to be the one  
Maybe we stayed too long  
Maybe we played all wrong  
This was supposed to be good  
But I know, I know

You and me we're bumper cars  
The more I try to get to you  
The more we crash apart, no  
Round and round we chase the spots  
But all that seems to lead to...  
It's a pile of broken cars

We're bumper cars  
Bumper cars  
The more I try to get to you  
The more we crash apart

We're bumper cars  
Bumper cars

The more I try to get to you  
The more we crash apart
