

# It's Hard to Get Around the Wind

Alex Turner

1. Its like you're trying to get to heaven in a hurry  
and the queue was shorter than you thought it would be  
and doorman says you need to get a wristband

You gotta lift between the pitfalls  
but you're looking like you're low on energy,  
did you get out and walk to insure you'd miss the quicksand

- R: Looking for a new place to begin  
feeling like its hard to understand  
but as long as you still, keep peppering the pill  
you'll find a way, to spit it out again  
and even when you know, the way it's gonna blow  
it's hard, to get around the wind

2. Stretching out the neck on your evening  
trying to even out some defects  
but its sabre-toothed multi-ball confusion

And you can shriek until you're hollow  
or whisper it the other way  
trying to save the youth, without putting your shoes on

R:

3. I can hear you through my window  
but i'm never quite sure who is who  
but they want the world on a desert spoon

it always sounds like they're fighting  
or as if that's what they're about to do  
it might not hurt now, but it's gonna hurt soon
