

# Break Free

Alexander

guess we talked too long without communication  
Hear the static breaking up Alexander  
We `re out of time and the signal died  
I hate to say we've got a hopeless situation Klaws  
A second chance is slim right now

Baby, break free  
We're heading on the road to destination nowhere Break  
Break free  
We're running on low, stranded out there somewhere Free  
Take it in - get it out  
Life's an itch and now it's all about Songtexte  
Break free  
If we let go - we might find a miracle Songtext  
We need a miracle

The lines we've drawn between us Lyrics  
Finally made a difference  
We can't say who's right or wrong Lyric  
When your eyes are closed and the distance grows  
I know, we've lost our way Liedertexte  
But if we get some space  
The world might turn us back around baby Liedertext

Break free  
We're heading on the road to destination nowhere Alle  
Break free  
We're running on low, stranded out there somewhere  
Alexander  
Take it in - get it out  
Life's an itch and now it's all about Klaws  
Break free  
If we let go - we might find a miracle Break  
We need a miracle

Maybe I talk too much and try to be too clever Free  
But I still need you desperately  
Like the air I breathe Songtexte  
But something in us has to

Break free  
We're heading on the road to destination nowhere
