

Just Tomorrow

Alexander

Oh, you, you're telling me lies
You've lost your heart, it's no surprise
Don't cry, don't cry a tears
If he is gone, oh, I'm still here
Love is all that matters, baby
And I'll love you 'til I die
And I miss you, girl, like crazy.
Can't you give me one more try?

Just tomorrow - there's another day
Just tomorrow - you will find your way
Just tomorrow - oh, your dreams come true
Angels never make you blue
Baby, baby, angels never make you blue

Oh, you, you're breaking my heart
You gave me love, don't tear apart
Oh, now, can you do it alone?
And in the night your heart needs a home
Lonely nights don't stay forever
And I see it in your eyes
Baby, can't we stay together?
Oh, I'll never tell you lies
