

# Love at First Sight

Alexander

Fallin' in love is not an easy thing with you  
Whispering words looking for answers  
Thoughts of dying memories  
Are written on my soul  
Can't you tell me  
I'll be the one for you  
Girl lets make it true for you and me  
Whereever you may go  
I'll be your shining star

When I look into your eyes  
Then I feel love at first sight  
When I see your little smile  
I can let it go by  
When I look into your soul  
I just cannot let go  
What can I do it's love at first sight

Lay your hand on my heart  
Just feel inside  
Been touched by emotions  
I've tried hard to hide  
Is there any way that  
I can feel your tenderness  
Tender as our hearts  
They beating both the same  
Without you lonely seconds  
It never seem to end  
I hope whereever you go  
I'll be your shining star

When I look into your eyes  
Then I feel love at first sight  
When I see your little smile  
I can let it go by  
When I look into your soul  
I just cannot let go  
What can I do it's love at first sight

Feel like I can hear the music of angels  
Feel like I can play sweet music of love  
Take me by the hand and lead me to heaven  
We can spread our wings and fly away

When I look into your eyes  
Then I feel love at first sight  
When I see your little smile  
I can let it go by  
When I look into your soul  
I just cannot let go  
What can I do it's love at first sight

When I look into your eyes,  
Then I feel love at first sight  
When I see your little smile, oh no no  
When I look into your eyes,  
Then I feel love at first sight

When I see your little smile,  
What can I do it's love at first sigh
