

## Maybe

Alexander

Every time I see you every time I touch you  
You kiss the past goodbye  
Oh every time you'll tell me that you really love me  
I feel like I can fly  
I miss you like the sunshine  
Miss you like the heaven  
See what love can do  
Dreams that money can't buy  
I'll give you everything girl  
All this and heaven too  
Why do you say goodbye?  
When the night comes falling from the sky

Maybe I'm right maybe I'm wrong  
The only thing I know is Baby you're the one  
Maybe I'm high maybe I'm down  
But I never ever want to be alone

Whatever makes you lonely whatever makes you crying  
Baby I'm still here the sky is getting blue girl  
Baby when I see you  
I'll take away your fears  
My door is always open  
'Hello little angel' please don't fly away  
Love is more than a feeling  
I lonely in my nightmare  
Baby can't you stay?  
Where did you sleep last night?  
Can't you stay by my side
