

# Stay

Alexander

She's the grass on the other side  
Caught her eye, had a smile  
And a bottle of wine  
Red lips, tight hips  
She was out there to play  
I was her game  
And she saved the last dance for me

Forgive me for falling down  
Forgive me for losing ground

Stay  
With you an every day  
Save me from drowning  
Come ease the pain I'm in  
Stay  
Your love is everything  
For you I'd do anything  
To make you stay

And she knows how to take you down  
I should go, walk away  
But I don't know how

Never thought in my life I would be untrue  
It's so easy to stay 'till it happens to you

Forgive me for falling down  
Forgive me for losing ground

Stay  
With you an every day  
Save me from drowning  
Come ease the pain I'm in  
Stay  
Your love is everything  
For you I'd do anything  
To make you stay  
Stay.....

So tempted  
By desire  
Burned my fire  
Swept away

Stay  
Your love is everything

Stay  
With you an every day  
Save me from drowning  
Come ease the pain I'm in  
Stay  
Your love is everything  
For you I'd do anything  
To make you stay  
Stay, stay...
