Stay

Alexander

She's the grass on the other side Caught her eye, had a smile And a bottle of wine Red lips, tight hips She was out there to play I was her game And she saved the last dance for me Forgive me for falling down Forgive me for losing ground Stay With you an every day Save me from drowning Come ease the pain I'm in Stay Your love is everything For you I'd do anything To make you stay And she knows how to take you down I should go, walk away But I don't know how Never thought in my life I would be untrue It's so easy to stay 'till it happens to you Forgive me for falling down Forgive me for losing ground Stay With you an every day Save me from drowning Come ease the pain I'm in Stay Your love is everything For you I'd do anything To make you stay Stay..... So tempted By desire Burned my fire Swept away Stay Your love is everything Stay With you an every day Save me from drowning Come ease the pain I'm in Stay Your love is everything For you I'd do anything To make you stay Stay, stay.
