

Sunshine After the Rain

Alexander

Sunshine - Good times
I know - we'll be fine

1. Strophe:

Woke up this morning
Another brand new start
That's our life
I jumped with every beat of my heart
When you came over
I could see something was wrong
It really isn't worth that you
Just get to keep moving alone

You know that - I always be there

Refrain:

I'll be your sunshine after the rain
When the sky is turning grey
You know that I'm never far away
Sunshine after the rain
Together 'til the end
Whenever you're in need of a friend
Or a shoulder to cry on
Someone there to rely on
I'll be your sunshine after the rain
It's the one thing I won't change

2. Strophe

We've known each other
Since I don't know how long
As long as I remember
You were always there
Singing along
There've been some good times
And it's even been some sad
But we always somehow managed
To get something good
Out of the bad

Remember - I'll always be there

Chorus:

I'll be your sunshine after the rain
When the sky is turning grey
You know that I'm never far away
Sunshine after the rain
Together 'til the end
Whenever you're in need of a friend
Or a shoulder to cry on
Someone there to rely on
I'll be your sunshine after the rain
It's the one thing I won't change

3. Strophe

Some say that friends
Will come and go
But this thing we have
Will always grow
It's just one of these things you know

Sunshine-good times
I know we'll be fine

Sunshine- good
I know wer'll be fine
Chorus:
