

# Gotta Go

Alexandra Burke

You said you'd never break my heart  
Hey  
And we'll never be a-part  
So seeing you after so long  
Got me spinning round, round, round, round  
You said we'd always be together  
And to me you were so precious  
So after you what happens now?  
You got me feeling down, down, down, down

So I think I gotta go  
Cause seeing you is so confusing  
And I might end up losing again  
So I'm thinking thinking

I think I gotta go  
Before I start to catch a feeling  
And you might end up leaving like you left me once before  
My heart can't take no more  
So I think I gotta go

Seeing you after so long mmm  
Feels so strange cause the feelings ain't gone  
Like a rollercoaster ride  
Got me spinning round, round, round, round

So I think I gotta go  
Cause seeing you is so confusing  
And I might end up losing again  
So I'm thinking thinking

I think I gotta go  
Before I start to catch a feeling  
And you might end up leaving like you left me once before  
My heart can't take no more  
So I think I gotta go

You see the damage has been done  
And now I know you're not the one  
Cause my heart just wants to run and run and run and run

So I think I gotta go  
Before I start to catch a feeling  
And you might end up leaving again  
So I'm thinking thinking

So I think I gotta go  
Cause seeing you is so confusing  
And I might end up losing again  
So I'm thinking thinking

I think I gotta go  
Before I start to catch a feeling  
And you might end up leaving like you left me once before  
My heart can't take no more  
So I think I gotta go
