Back to Light

Alexandra Stan

Been looking for an answer Been looking through desert of time Been waiting forever, And tryna find my way

Back to light Back to light Back to light Back to light

Don't know what it means Don't know where I've been But tonight I'm gonna let my hair down Don't be so mean, you'll cause a scene But tonight I'm gonna let my hair down

Been looking for a treasure Buried so deep behind my eyes Been waiting forever And tryna find my way

Back to light Back to light Back to light Back to light

I'm going back to light

Don't know what it means Don't know where I've been But tonight I'm gonna let my hair down Don't be so mean, you'll cause a scene But tonight I'm gonna let my hair down

I'm going in
I'm going in
I'm going in
I'm going in
I'm going in back to light
I'm going in

Don't know what it means Don't know where I've been But tonight I'm gonna let my hair down Don't be so mean, you'll cause a scene But tonight I'm gonna let my hair down
