

# Happy

Alexandra Stan

I just have this feeling  
I have this feeling it's gonna be alright  
And I just can't believe it  
That you're here with me tonight

One look in your eyes and it was over  
Caught me by surprise, I got ran over  
One look in your eyes and it was over  
It was over, it was over

I don't need anything, anything better  
All I need is your love to make me HAPPY  
Don't need anything, anything better  
All I need is your love to make me HAPPY  
You make me HAPPY, you make me HAPPY  
All I need is your love to make me HAPPY  
You make me HAPPY, you make me HAPPY  
All I need is your love to make me HAPPY

I know that you see me  
And now you see me in the bed light  
And I just can't believe it  
That you're here with me tonight

One look in your eyes and it was over  
Caught me by surprise, I got ran over  
One look in your eyes and it was over  
It was over, it was over

I don't need anything, anything better  
All I need is your love to make me HAPPY  
Don't need anything, anything better  
All I need is your love to make me HAPPY  
You make me HAPPY, you make me HAPPY  
All I need is your love to make me HAPPY  
You make me HAPPY, you make me HAPPY  
All I need is your love to make me HAPPY

I don't need anything, anything better  
All I need is your love to make me HAPPY  
Don't need anything, anything better  
All I need is your love to make me HAPPY  
You make me HAPPY, you make me HAPPY  
All I need is your love to make me HAPPY  
You make me HAPPY, you make me HAPPY  
All I need is your love to make me HAPPY

I just have this feeling  
I have this feeling it's gonna be alright
