Well I have been searching all of my days
All of my days
Many a road, you know
I've been walking on
All of my days
And I've been trying to find
What's been in my mind
As the days keep turning into night

Well I have been quietly standing in the shade
All of my days
Watch the sky breaking on the promise that we made
All of this rain
And I've been trying to find
What's been in my mind
As the days keep turning into night

Well many a night I found myself with no friends standing near All of my days
I cried aloud
I shook my hands
What am I doing here
All of these days
For I look around me
And my eyes confound me
And it's just too bright
As the days keep turning into night

Now I see clearly It's you I'm looking for All of my days Soon I'll smile I know I'll feel this loneliness no more All of my days For I look around me And it seems you've found me And it's coming into sight As the days keep turning into night As the days keep turning into night And even breathing feels all right Yes, even breathing feels all right Now even breathing feels all right It's even breathing Feels all right
