

## At Your Door

Alexi Murdoch

Well, you can hide behind your door  
And you can leave me kneeling on the floor  
But I will only love you more  
Yes I will only love you more

Well, you can take from me all you think you need  
And you can bury it deep, deep in the ground  
But I will never let you down  
No I will never let you down  
No I will never let you down  
No I will never let you down
