

Everyday

Alexia

This is not a love song
This song is not for you
This is not a love song
Can't you hear me singing it for you
I thought that i belonged to
No-one else but you
The nights are sad and lonely
You don't think about me neither i, you
Nothing lasts forever
It's all i had from you
Every day
Every night with you
Here by my side
I don't wanna be with you
Now you treat me friendly
But I'll never change my point of view
Never get back together
Nothing else to do
Every day
This is not a love song
This song is not for you
This is not a love song
