You can't think about tomorrow When you're livin' in a fight Deep inside you're feeling pain and sorrow And you wander in the night This is my way Save a prayer for tomorrow Never close your eyes Save a prayer for tomorrow Never be so blind When the road is long and narrow And you feel you've lost your sight Then you need another road to follow In the dark you will find a light This is my way Save a prayer for tomorrow Never close your eyes Save a prayer for tomorrow Never be so blind This is my way And I keep on praying A prayer for you You know it's true A prayer for you Save a prayer for tomorrow Never close your eyes You know it's true Save a prayer for tomorrow Never be so blind Oh, you know it's true Save a prayer for tomorrow (A prayer for you) Never close your eyes Oh, you know it's true Save a prayer for tomorrow Oh yeah, you know it's true Never be so blind Yeah, you know it's true And oh, save a prayer for tomorrow
