Every time when I'm feeling blue I look inside me and I remember you Every time when I'm feeling blue I remember you Some words in my mind Talk about it all time Again and again And they just make me cry Oh baby, come on Before you give up and go Could you believe in love? Bad words and good times In my mind don't survive Again and again And they just make me die Oh baby, come on Before you give up and go Do you believe in love? Baby, I wanna shake you up Shake you up, shake you up Do you wanna take my heart? Baby, I wanna shake you up Shake you up, shake you up Take me up, baby, give up Baby, I wanna shake you up Come on, baby, shake you up All I want is another way Baby, I wanna shake you up Oh my baby, shake you up All I need is another say Sometimes on my mind I remember those times Again and again And they just tell me lies Oh baby, come on Before you give up and go Could you believe in love? Bad words and good times In my mind they revive Again and again And they don't say, "Goodbye" Oh baby, come on Before you give up and go Do you believe in love? Baby, I wanna shake you up Shake you up, shake you up Do you wanna take my heart? Baby, I wanna shake you up Shake you up, shake you up Take me up, baby, give up Every time when I'm feeling blue I look inside me and I remember you Every time when I'm feeling blue I remember you Baby, I wanna shake you up Shake you up, shake you up Do you wanna take my heart?

Baby, I wanna shake you up
Shake you up, shake you up
Take me up, baby, give up
Baby, I wanna shake you up
Come on, baby, shake you up
All I want is another way
Baby, I wanna shake you up
Oh my baby, shake you up
All I need is another day
Every time when I'm feeling blue
