

The Music I Like

Alexia

Your love is coming into my life
Makes me feel good inside
I need a moment of ecstasy
Feeling higher than high
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
Your love is coming into my life
It makes me feel good inside
I need a moment of ecstasy
Feeling higher than high
I want to live with my fantasy
Dancing into the light
And I can play with my destiny
Makes me feel satisfied
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
A fire is burning inside of me
Feel the rhythm of life
I need your loving to set me free
Won't you stay by my side
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
This is the music I like
Your love is coming into my life
Makes me feel good inside
I need a moment of ecstasy
Feeling higher than high
This is the music I like
