You know baby gotta love me tonight it's so right
'cause you baby you know you make it right
my blood pressure rise high I got hype
I don't know why I know you think I'm obsessive
the type of guy I can be over possessive
giving all that I can give best wishes
on how we live just us two is I really true
love me tonight till the sky turn blue
tonight is the night so tell me what you wanna do
I never wanted this to happen to me but I feel
you love is right and I will always be there yeah
