

# Feel The Rhythm Tonight

Alexis Jordan

(2x)

All I need is your love  
All I need is a beat  
All I need is your rhythm  
To set me free

The rhythm tonight...  
The rhythm tonight...

Whips, leather seats  
The silhouette for fame  
Knew it was love from a million miles away  
Out in the car, take me far as you can go  
'Cause I wanna love you, so come take me away

I feel the rhythm calling me every night  
It's pulling me under, I'm not trying to fight  
The way you're dancing, honey it feels so right  
I need to feel your, feel your  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight

I need you here  
Don't even know your name  
Love how you dance like you've never been afraid  
Love made me run but I ran into you  
I'd wanna keep on running to beat just like my heart

I feel the rhythm calling me every night  
It's pulling me under, I'm not trying to fight  
The way you're dancing, honey it feels so right  
I need to feel your, feel your  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight

I need your love,  
I need the beat  
Oh give me your rhythm  
Just set me free

All I need is your love  
All I need is a beat  
All I need is your rhythm  
To set me free

We run around in the space  
I can see it in the look on your face  
We are fly, it's a matter of time  
Just close your eyes and feel the rhythm tonight

I feel the rhythm calling me every night

It's pulling me under, I'm not trying to fight  
The way you're dancing, honey it feels so right  
I need to feel your, feel your  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight  
Feel your rhythm tonight tonight tonight
