

# Say That

Alexis Jordan

I'm here to give you my love  
I'm here to give you my heart this evening  
Tell me that you were ready  
Tell me you'll take it steady with me  
Oh

Say that it's us that your seeing in your dreams tonight  
Say that it's love that you need and your needing mine  
Say that It's the height of imagination  
That's how the celebration  
All we need is a radio you and me

na na na na na

I came to tell you my past  
I'm hoping that you'll want a future after  
Tell me that you'll protect me  
Oh  
Promise you won't regret me  
No

Say that it's us that your seeing in your dreams tonight  
Say that it's love that you need and your needing mine  
Say that It's the height of imagination  
That's how the celebration  
All we need is a radio you and me

And if you ever get lost  
I'll come and get ya  
No matter what the cost  
I'll pay it with ya  
You don't ever have to wonder  
I'll doubt my feeling for ya  
Because we're solid as a rock  
Of everything you are  
And everything your not  
Give you all that I've got  
And I'm never gonna stop  
No

I'm here to give you my love  
I'm here to give you my heart  
My heart  
My heart

Say that it's us that your seeing in your dreams tonight  
Say that it's love that you need and your needing mine  
Say that It's the height of imagination  
That's how the celebration  
All we need is a radio you and me  
Say that it's us that your seeing in your dreams tonight  
Say that it's love that you need and your needing mine  
Say that It's the height of imagination  
That's how the celebration  
All we need is a radio you and me
