Who knew her legacy would destroy her future? You had such promise before your rape You had such promise before your rape

Born innocent but something had to give Exploitation, erotica and horror Even a spread in Oui magazine And then your habit of getting caught What a frightful night Born innocent but something had to give

We won't, we won't, we won't
We won't forget you
(What a frightful night)
We won't, we won't, we won't
We won't, forget you
(What a frightful night)

You painted a picture so graphic That no one could They can't see past it You painted a picture so graphic That no one could... They can't see past it

We won't, we won't, we won't
We won't forget you
(What a frightful night)
We won't, we won't, we won't
We won't, forget you
(What a frightful night)
We won't, we won't, we won't
We won't forget you
(What a frightful night)
We won't, we won't, we won't
We won't, forget you
(What a frightful night)

We won't forget that girl possessed We won't forget that girl possessed Possessed.
