

You're not alone

It's been a long way long way long way home
It's been a lonely lonely lonely road
It's been a long time I can't find
So long I'm gonna lose my mind
It's been a long way long way long way home

But look at who's right beside you
When you're alone barely holding on
You leave your worries behind you
You're not alone in the dark
But look at who's right beside you
You're looking back thinking oh my god
That somebody's never left you
You're not alone in the dark

It's been a long
It's been a long way home
It's been a long way home
You're not alone in the dark

Oh my look at those eyes
Look at the trouble that they hide inside
I see the flicker of the pain on the rise
Oh my look at those eyes

Maybe they're like mine
Things I wish I did not see
I push away all the dirt and debris
But what'll be left of me
