Not Standing Alone

Alexz Johnson

```
I'd go where I've known
If the earth could find my feet
I would run away and go where I known
But you don't even care
No, you don't even care
What;s fair
Not standing alone
Not standing around
While they sleep and wait until I lose my ground
Not letting it go
Won't leave it behind
Won't let it pass me by no not this time
Not standing alone
Not standing around
Not letting it go
Won't leave it behind
I keep so far
I nearly lost my mind
I held on so tight
And now I see that I was blind
But you don't even care
No, you don't even care
What's fair
Not standing alone
Not standing around
While they sleep and wait until I lose my ground
Not letting it go
Won't keave it behind
Won't pass me by no not this time
Not standing alone
Not standing around
Not letting it go
Won't leave it behind
I have a party
I have a song
Don't need nobody ain't nothin' wrong
I hear the talk
I hear the cry
Along the inside and looking out
Hey
Not standing alone
Not standing around
While they sleep and wait until I lose my ground
Not letting it go
Won't keave it behind
Won't pass me by no not this time
Not standing alone
Not standing around
Not letting it go
Won't leave it behind
Not standing around no no no
Not standing around no no no
Not standing around no no no
Not standing around no no no
Not standing around
Not standing around
Not standing around no no no
```
