Over-Rated

Alexz Johnson

You think it's cool, just cause they're telling you
You gotta have it, then you'll never miss it at all
You need the thrill, just cause it's killing you
You're so close, so don't take it too far

Where there's smoke you'll find a mirror
It's over-rated
I've watched it fade
So please don't give in
Don't forget what you believe in
It's over-rated
It's not worth chasing
Don't you know that
You'll love to love and then you'll hate it

Love and lost and everything between
It's perfect, it's poison that made me fall
You want it bad
Don't want it to slip away
It's too fast
It's gonna drag you down

Where there's smoke you'll find a mirror
It's over-rated
I've watched it fade
So please don't give in
Don't forget what you believe in
It's over-rated
It's not worth chasing
Don't you know that
You'll love to love and then you'll hate it

Coming close now, not any clearer
With every breath you're going deeper
But I will pull you back to me

It's over-rated
It's not worth chasing
Don't you know that
You'll love to love and then you'll hate it

Yeah, yeah, yeah, yeah, yeah, yeah, yeah, oh..

It's over-rated
And it's over-rated
You learn to love and then you'll hate it
You learn to love and then you'll hate it
It's over-rated
