

# Flying High

Ali Campbell

You can't know, oh no  
You can't know  
How much I think about you, no  
It's making my head spin  
Looking at you  
And you are looking at me  
And we both know what we want  
Hmmm, so close to giving in

Feel so nice  
Oh yeah you feel so nice  
Wish I could spend the night  
But I can't pay the price  
Oh no, no

But I'm flying so high  
High off the ground  
When you're around  
And I can feel your high  
Rocking me inside  
It's too much to hide

I know, oh yes  
I know that we can't  
Be together  
But, I just like to dream  
It's so strange  
The way our paths have crossed  
How we were brought together  
Hmmm, it's written in the stars it seems  
Feel so nice  
Oh yeah you feel so nice  
I'd love to spend the night  
But I can't pay the price  
Oh no, no

And I'm flying so high  
High off the ground  
When you're around  
And I can feel your high  
Touching me inside  
And it's too much to hide

Back to earth  
Where did you take me to  
I know there's no such thing  
As painless love  
Well it'll catch us up  
And we can never win  
But ohhh  
I feel so alive  
Ohhh  
Just wanna hold you  
Hold you so tight

And I'm flying so high  
High off the ground

When you're around  
And I can feel your high  
Touching me inside  
And it's too much to hide  
And I'm flying so high  
High off the ground  
When you're around!
