Flying High

Ali Campbell

You can't know, oh no You can't know How much I think about you, no It's making my head spin Looking at you And you are looking at me And we both know what we want Hmmm, so close to giving in

Feel so nice Oh yeah you feel so nice Wish I could spend the night But I can't pay the price Oh no, no

But I'm flying so high High off the ground When you're around And I can feel your high Rocking me inside It's too much to hide

I know, oh yes I know that we can't Be together But, I just like to dream It's so strange The way our paths have crossed How we were brought together Hmmm, it's written in the stars it seems Feel so nice Oh yeah you feel so nice I'd love to spend the night But I can't pay the price Oh no, no

And I'm flying so high High off the ground When you're around And I can feel your high Touching me inside And it's too much to hide

Back to earth Where did you take me to I know there's no such thing As painless love Well it'll catch us up And we can never win But ohhh I feel so alive Ohhh Just wanna hold you Hold you so tight

And I'm flying so high High off the ground When you're around And I can feel your high Touching me inside And it's too much to hide And I'm flying so high High off the ground When you're around!
