

Pay The Rent

Ali Campbell

If you want to live my life my friend
You're gonna have to pay my rent
You convince me just a little more
By giving me your focus, hey

Change my mind
Regardless of the awful consequence
Forgive my full confession
Give me back my innocence

If you want to live my life my friend
You're gonna have to do it right
Tell me time and time again
That everything is out-of-sight

Promise I can sleep all day
Make noise all through the night
If I choose it's no big news
Fly higher than a kite

If you want to live my life my friend
You better handle me with care
Accept all possibilities
Division's lurking everywhere

Nobody is perfect
And perfection is so rare
For only fools go rushing in
Where angels wouldn't dare

If you want to live my life my friend
You better handle me with care
Accept all possibilities
Division's lurking everywhere

Nobody is perfect
And perfection is so rare
For only fools go rushing in
Where angels wouldn't dare
