

I'll Bite Your Face Off

Alice Cooper

She was a dirty dream cool and clean
With seduction dancing in her eyes
She turned around looked me up and down
She took me by surprise

I tried to run tried to hide
But my feet were made of clay
Looked in her eyes I was paralyzed
I just couldn't get away

She licked her lips they were bloody red
She had the heart of the living dead
She pushed me down on a burning bed
Thought I was in heaven but instead
She turned her head and she softly said

I'll bite your face off
I'll bite your face off
I'll bite your face off little man
I'll bite your face off you know that I can

She put the whip into cream
She was a sinners queen oh a delicious angel face
She'd invite you in c'mon and lick my skin
You'd sell your soul for another taste

She took my heart my resistance fled
I loved each lie that I was fed
She pushed me down on a burning bed
Thought I was in heaven but instead
She turned her head and she softly said

I'll bite your face off
I'll bite your face off
I'll bite your face off little man
I'll bite your face off you know that I can

She pushed me down on a burning bed
Thought I was in heaven but instead
She turned her head and she softly said

I'll bite your face off
I'll bite your face off
I'll bite your face off little man
I'll bite your face off you know that I can

I'll bite your face off
I'll bite your face off
I'll bite your face off
I'll bite your face off
