

# Love's A Loaded Gun

Alice Cooper

1. Somebody saw you at the station  
You had your suitcase in your hand  
You didn't give no information  
You walked off with another man  
I'm always standing in the shadows, baby  
I watched you give yourself away  
You take them home into your bedroom  
You had another busy day

I tried to look the other way and fake it  
You push me to the limits  
I can't take it

R: One down, one to go  
Just another bullet in the chamber  
Sometimes love's a loaded gun

Red lights, stop and go  
Whatcha gonna do when you play with danger  
Sometimes love's a loaded gun  
And it shoots to kill

2. Someday they'll put me in a squad car  
Someday they'll throw away the key  
But 'til that day I'll be a mad dog  
Cuz that's what you taught me to be

You looked into the eyes of men above you  
I was the one who really tried to love you

R: One down...

Pull the trigger

I tried to look the other way and fake it  
You know, you push me right to the limit  
I can't take it

R: One down...

Somebody saw you at the station
