

# My Stars

Alice Cooper

My stars  
So far  
No one's callin' me home  
Space brain  
Vagabond  
Living on my own

Come on you faithful  
You know all you people should come to me  
I'll make you arms work  
And I'll make your legs work  
I'll make you see  
Ladada dadada dadada dadada da da  
Whoa, yeah

Well I swear by the air  
I'll be made to breathe  
You'll pay very dear for this banishing deed  
The power alone stored in my little hand  
Could melt the Eiffel Tower  
Turn the Sphinx into sand

Oh no  
Thar she blows  
Spreadin' crazy news  
All night  
Cannonball  
Loves to light the fuse

And everyone blows up  
And nobody grows up to fill Dad's shoes  
But that doesn't matter  
'cause no little boys really wanted to

Ladada dadada dadada dadada da da  
Whoa, yeah

I stared at the squall line  
I stared at the fault line  
I see a funnel black there  
I think I see a crack there  
Landscapes alive  
And it's moving my feet  
All I need's a Holocaust  
To make my day complete
