(No More) Love at Your Convenience

Your childish game is over now

Alice Cooper

```
Lost your power over night some how
Better see it ain't gonna be like it used to be
No more love at your convenience
No more love at your command
No more love at your convenience
Lots of time late at night, I really needed you
I'm telling you tonight's the night
Close your mouth, turn off the light
Pull me babe, pull me down closer on you
No more love at your convenience
No more love at your command
No more love at your convenience
Lots of time late at night, I really needed you
I really needed you, I really needed you
No more love at your convenience
No more love at your command
No more love at your convenience
Quit your tears and dry your eyes
You know I hate to see you cry
Don't you see things gotta be what they got to
No more love at your convenience
```
