Don't need a crystal ball for me to see clearly No astrology or Tarot cards Watching CNN and holding my breath To face the daily news scares me to death

I'm pessi-mystic
I'm so fatalistic
I'm pessi-mystic
I don't believe a thing
I'm pessi-mystic
I'm so nihlistic
I'm pessi-mystic
For what tomorrow brings

I can't hear a word you say
So shut up, shut up, shut up
I like being sick this way
So shut up, shut up, shut up, shut up

Everybody's mind is badly infected Everybody feeds the parasite Everything is dark so why not accept it? Everything is far more black than white

I'm pessi-mystic
I'm so fatalistic
I'm pessi-mystic
I don't believe a thing
I'm pessi-mystic
I'm so pissed-off-istic
I'm pessi-mystic
Of what tomorrow brings

I can't hear a word you say
So shut up, shut up, shut up, shut up
I like feeling sick this way
So shut up, shut up, shut up, shut up

Shut up, shut up, shut up, shut up Shut up, shut up, shut up, shut up

I'm pessi-mystic
I'm so fatalistic
I'm pessi-mystic
I don't believe a thing
I'm pessi-mystic
I'm so nihlistic
I'm pessi-mystic
Of what tomorrow brings

I can't hear a word you say
So shut up, shut up, shut up
I like being sick this way
So shut up, shut up, shut up, shut up
I can't hear a word you say
So shut up, shut up, shut up, shut up
I like feeing sick this way

So shut up, shut up, shut up, shut up Shut up, shut up, shut up
