Salvation

Alice Cooper

What if I'm wrong? I've been deceived all along What if I'm wrong? What have I done? Did I waste a life just for fun? What have I done? What did I do? I did what voices told me to What did I do? Where will I go? Will I sink through fire down below Where will I go? Any chance of salvation Any chance for me Any chance of salvation for eternity Any chance of salvation Someone died for me Washed in blood, he cared enough to pity me Why do I care? What's wrong with me, my hate is gone? Why do I care? When did I change? What's different now, it's very strange? When did I change? Any chance of salvation Any chance for me Any chance of salvation for eternity Any chance of salvation Someone died for me Washed in blood, he cared enough to pity me In my heart, in my soul Some thing's new, that's very old Like a pain that's finally gone I feel my heavy burden lifted Any chance of salvation Any chance for me Any chance of salvation Any chance of salvation Any chance for me Any chance of salvation for eternity Any chance of salvation Any chance for me Any chance of salvation for eternity Any chance of salvation Any chance for me Any chance of salvation for eternity
