

Shadow Of Yourself

Alice Cooper

Since you been gone
I see your skin
So pale and drawn
So grey and thin

You're just a shadow of yourself
A shade of a different color
Let me create you, let me help
You're just a shadow of yourself

With all my love
With all my heart
My masterpiece
My work on you is a piece of art

You're just a shadow of yourself
A shade of a different color
Let me create you, let me help
You're just a shadow of yourself

You're just a shadow of yourself
A shade of a different color
Let me degrade you, let me help
You're just a shadow of yourself

Your hollow eyes (a shadow of yourself)
Your twisted smile
Your open arms (a shadow of yourself)
Come here and lie with me awhile

You're just a shadow of yourself
A shade of a different color
Let me degrade you, let me help
You're just a shadow of yourself

You're just a shadow of yourself
A shade of a different color
Let me decimate you, let me help
You're just a shadow of yourself

A shadow of yourself
