

## Windshield Of Love

Alice Donut

I'm your aching mutant, baby  
Come rub my head.  
I'm a unicef poster, baby, so underfed.  
Wrapped in your bodybag, I can feel the seams  
Lying on the carpet, I'm just what I seem.

You're a whirling dervish  
High on the mount.  
You play with my freak of love  
then throw me out.

(chorus)  
I can feel the impact  
Someone get the squeegee (2x)  
Scrape me off this windshield of love.

Take a swig from the bottle, baby  
I like to share.  
You don't know that I exist  
You don't even care.

Sliding down that greasy pole  
to catch that wiggling pig.  
Let's see where you get off.  
Let's see what I get in.

(chorus)  
(instrumental break)

I'm always losing baby, what did I expect?  
Zero, big fat nothing baby, that's what I get.  
Wrapped in your bodybag  
I can feel the seams.  
Dying on the carpet  
I'm just what I seem.

You're a whirling dervish  
High on the mount.  
You play with my freak of love  
then throw me out.

(chorus).
