## **Alice In Chains**

I could climb until I reach where angels reside
Ask around to find out where the junkies applied
You just up and left me on this rock all alone
It's my fault for knowing not what I should have known

## Ohhhhhhhh

My heart is dried up, beating slow Ohhhhhh
It's been deflating since you ... died Died Since you ... died You ... died

I could drop until I touch the sinister side Visit all attractions flippin' back and aside Still you leave me rotting on this rock all alone It's my fault for knowing not what I should have known

#### Ohhhhhhhh

My heart is dried up, beating slow Ohhhhhh
It's been deflating since you ... died Died
Since you ... died
You ... died
