Cut The Crap

Alice in Videoland

Hey, come on, cut your crap Get it on, I'm kicking back You've got to, hah hah To give it to me baby Don't you stand over there Be a man if you dare You've got to, hah hah To treat me like a lady

I love the way you like me, the things you say about me I like you looking pretty Though I look like hell I like it when you miss me I like it how you kiss me I like you looking after me Though all is well

Let's stay in bed all day long, I say
We can do it all in every way
'cause I like it just the way you like it
ooOOOooh!

Hey, come on, cut your crap Get it on, I'm kicking back You've got to, hah hah To give it to me baby Don't you stand over there Be a man if you dare You've got to, hah hah To treat me like a lady (x2)

You know my every action
My different reaction
You know what gets me going
And what pisses me off
You know I'm not the soft kind
I do what's on my own mind
But suddenly it seems
Like I can't get enough

Let's stay in bed all day long, I say
We can do it all in every way
'cause I like it just the way you like it

Hey, come on, cut your crap Get it on, I'm kicking back You've got to, hah hah To give it to me baby Don't you stand over there Be a man if you dare You've got to, hah hah To treat me like a lady (x2)
